EOCWD's timing. President VANDERWERFF said that he would like to have IRWD support EOCWD in this. A. **Master Plan Updates and Peters Canyon Treatment Plant Feasibility Study.** Ms. OHLUND reviewed the selection process and interviewing team, noting that Carollo had provided a good level of detail on the proposed work effort and demonstrated a good understanding of the District's objectives from the financial perspective. She noted some small plants in operation. She introduced GRAHAM JUBE who indicated Carollo was excited to be taking on this effort with the District. Director BELL said this project would provide value to the District in countering supply uncertainties.

C. State Water Resources Control Board (SWRCB) Emergency Rulemaking – Water Conservation Regulations. Ms. OHLUND reported that in this rather unprecedented step, yesterday MWDOC's General Manager Hunter testified to the SWRCB and provided excellent comments. She said compliance with the requirements adopted by SWRCB should be relatively easy to do under the District's existing ordinance, including some possible revisions in the Ordinance and proceeding to a Level One shortage, and she would bring back recommended actions at next month's meeting. She said it will be necessary to look at implementation of a second tier in the rates as most other agencies with a budget allocation have found necessary for the structure to be effective. Ms. OHLUND noted that Southern California had been doing well in cutting back usage, but recently showed an increase, and the MWDOC Managers would be meeting soon to discuss how best to communicate this to the public. Ms. OHLUND said she expected a high volume of calls from customers and was using Nicole Hopp in that role.

D. Orange County Sanitation District #7 Local Sewer Service Reorganization – Status Report. Ms. OHLUND said she had nothing to add to her written report.

D. Revisions to Retail Zone Rate Schedule Sheet. Ms. OHLUND reviewed changes which did not include any changes to rate amounts, but made clarifications, including clarifications to the customer deposit requirements. Director BELL said he was of the view that construction water should be charged at the same as other water. President VANDERWERFF said he had looked at this and his understanding was that a change in the construction water rate would not require a Proposition 218 hearing process. Ms. ARNESON said she would need to review this in order to advise the Board. It was the consensus to adopt the recommended changes as proposed and bring back the construction water charge.

ACTION TAKEN:

Upon a motion duly made, seconded and carried unanimously (roll call vote), the clarifications and revisions to the Retail Zone rate sheet were approved as presented.

Ms. OHLUND said this would provide the District with needed information on a more controlled basis than polling and would assist the District in communicating to the public.
