

STUDENT INTERNSHIP OPPORTUNITY

The East Orange County Water District is a small water district serving an unincorporated area of the Tustin Foothills in Orange County. We provide wholesale imported water to four neighboring agencies and provide retail service (groundwater and imported water) to 1,200 customers. We are currently accepting Intern applications for the position of Temporary Water Operator Intern I. If you are interested in learning about the water industry as well as working in a friendly atmosphere with an emphasis on customer service, we'd like to talk to you!

Position Description:

Temporary Water Operator Intern I : This is an entry-level temporary position for a Water Science student to perform a variety of work on the District's water distribution system. Personnel work under relatively close supervision, performing routine and repetitive maintenance, installation, and repair assignments. Typical duties include: installing, replacing, and reading water meters; repair and installation of service laterals; maintenance and repair of the water distribution system mainlines, valves, and hydrants; respond to a variety of customer service calls, assist with water quality sample collection, distribute notices, and a variety of other related tasks. Requires a CA Grade D-1 License or the ability to obtain a D-1 License within 3-6 months.

Salary

Operator Intern I: \$19.13 hourly.

INTERESTED? Please visit or call our office to request an application. Completed applications may be submitted electronically, by mail, or in person.
